### From the World of Mike-the-Locksmith

Welcome once again and thanks for reading!

We're headed for cooler weather and it's back to school and back to work

### Mike's Locksmith opens it's first location at 12410 Washington Ave, Rockville, MD

again. I find myself busy readying my first store with samples, displays and informational materials. I find that an informed customer is a good customer, so if you ever want to learn more about keeping you and your business safe and sound, stop by to browse products or get more information. I'm here to offer advise and to give you help. Remember that my consultations, assessments and estimates are FREE, so don't hesitate to call.

At Mike's Locksmith, I'm always looking for products to improve my customers' safety. Look for an announcement soon and in the meanwhile, be sure to visit my websites: [www.mikes-locksmith.com](http://www.mikes-locksmith.com), residential focused website

And, my recently launched web-site focusing on commercial services at [www.mikes-locksmith.net](http://www.mikes-locksmith.net)

Remember, at Mike's Locksmith, I put my customers first by offering FREE, NO OBLIGATION, NO PRESSURE ESTIMATES UP-FRONT PRICING and NO TRAVEL FEES. I look forward to serving you in the future.

Warm Regards,  
Mike-the-Locksmith

## [Mike's favorite song about Locks and Keys!](#)

[Listen Here](#)

At any given moment, at any workplace, thefts occur, taking advantage of an employee's brief absence from the office.

Experienced thieves capitalize on opportunities of this sort (making coffee, consulting in a nearby office, a bathroom break etc.) in order to steal professional equipment, information, intellectual property or other valuables.

Code-It , Mul-T-Lock's electronic security handle, is an innovative solution which simply and efficiently reduces opportunities of this sort. An automatic locking mechanism, built into the handle, allows the door to open with a personal code.

Code-It - The key to indoor security
