It's always the little things that make a difference.

### Picks and Tips from Mike the Locksmith

#### From the World of Mike-the-Locksmith

...when the sun shines hot and the wind blows cold: when it is summer in the light, and winter in the shade.  
(a quote apropos of March)

When we pay it forward, miniscule things can make a stupendous difference -- in our businesses, our communities, and the world. Did you know that each

time someone deals with us, whenever someone uses our service or buys our products, something great happens somewhere in our world.

**B1G1 - Business for Good.** [Visit the website here.](#) With every purchase from Mike's Locksmith, you are making a difference in the lives of those less advantaged.

In this issue I'll discuss Sentry Safe, a popular home safe. I'll also talk about the Home Service Alliance of Montgomery County, MD, of which we are delighted to be a part.

Be sure to read below about the charity that I've designated for the month of March. And, once again, many thanks for your business and your referrals.

### How Secure is Your Home Safe: a warning

I came across an on-line article the other day, concerning Sentry Safes, a very popular brand available at Amazon and many other big-box retailers.

[Read it here.](#)

According to Amazon, the Sentry Safe promises to provide reliable protection for important documents and valuables.

Although it delivers reliable protection in the unpredictable conditions of a fire and water protection up to 8" of water for 24 hours, the dual key lock cannot protect the safe from unauthorized access with a rare earth magnet, which can be purchased at

Home Depot for a mere \$12 (THAT'S RIGHT, A RARE EARTH MAGNET!!), nor can the six large, 1" live-locking bolts and the Pry-Resistant hinge bar provide reliable protection against said magnet. [Watch here](#)

The Sentry Safe(s) bear a consumer rating of 4.5 , but beware. The most secure safes should be purchased from a security professional, such a Mike's Locksmith.
